Student Letter

I am Usama. I am 16 years old, and I am from Nigeria. I love sports and always want to engage in sports. I eat all sort of food and my favorite food is rice. I love being with friends and I hate dishonesty.

I come from a nuclear family of 10 members; my father, my mother, my stepmother and we children. I am the first child of my mother. Our beloved father passed away and I am now in the hands of my mother and my Uncle. They do all that a father does to his child for me.

My responsibilities at home are; I help my younger brothers and sister do their homeworks and assignments, I help my mother to wash some of our clothes and I am sometimes sent to buy something when I am the only child at home.

My interests are mainly sports and games. I love to play snooker and complete in a dance. My interests also include write-up.

My friends are mainly my classmates and some are my schoolmates from other classes. I also have few friends from my neighborhood. The activity I like to do with my friends is to complete in a particular subject like physics, English, mathematics, etc. I also like to play games with my friends.

The future career of mine is to become a civil engineer and a sportsman.

I want to have more life experiences and improve in speaking English.
