Student Letter

My name is Irina, I am 16 and I am from Serbia. I'm a curious girl which has lots of interests and goals. One of my passions is literature, especially contemporary novels. I play volleyball, like staying active and having a healthy lifestyle.

My family consists of five members: dad, mother, younger sister, dog, and of course, me! We enjoy spending time together and exploring different cities while going on trips. Our tradition is skiing holiday in winter, which started when I was three years old. I like playing volleyball with my sister and I'm always by her side in case she needs help with her homework, a piece of advice, or just someone to talk to.

Like every other teenager, I spend time with my friends. I'm a social person and I seize every opportunity to socialize. Time spent with my friends is always unpredictable, it can be going from playing volleyball, watching our favorite volleyball team and cheering, dancing, and singing, to serious discussions about life and even politics! We often go for walks or grab a coffee after a long day in school.

I'm an outdoor person who loves to travel, listen to music, swim, try different things, food, sports, enjoy life, and make every opportunity into an adventure and great experience!

I'm still figuring out what my academic future will be, but I'm sure that is going to be something creative.
