Student Letter

My name is Linda, I am 15 years old and I am from Brazil. I'm very outgoing and love to meet new people and see new places. I like to study, I always give my best at school so I can have a great job in the future and join a good university. I live with my parents and I have a dog named Mike, he's a lovely golden retriever and I love him very much. My passions are going to the gym, eating healthy, hanging out with my friends, going to restaurants, and traveling. I want to go to law school, I think it's because almost all my mom's side of the family are lawyers, so I grew up very connected to this area.

My town is very small but it is near the beach, so when my friends and I want to hangout, we usually go to the beach by bike and stay there all day. My parents, although strict, always let me ride my bike all over the town with one condition: I always have to tell them where I am going and who I am with.

I am really looking forward to an exchange program full of new things, new culture and new people. I want to live a culture completely different of mine and learn with it. I have been dreaming with this experience since I was a kid and I will do everything to this period of my life to be incredible for me and my host family.
