Student Letter

My name is Valentýna and I am 15 years old. My parents work together as Interior Designers and they have own company. My brother is studying University but sometimes he helps them. My older sister is a scientist and she has just moved to new semi-detached house with her boyfriend and their son in Klecany which is near our house. I like them so much, that is why I visit them very often. I often look after my nephew, especially during the quarantine we spent a lot of time together. He is one and a half year old cute boy and I also love small kids.

All my life we have had pet cats. Now we have a cat we call her Cherry. She is four years old and had a kitten three times. My grandpa had a pigeons, he look after them. We had them in our garden and he used to go to see them every day.

My biggest hobby is alpine skiing, I have been skiing since I was three years old. I have a lots of friends there and we go to races together in the winter. My mum is also the skiing instructor of our team so I guess it runs in our family.

Also I'm a scout leader, I'm trying a younger girls to be a better person not only in a scout way but also as a human beings. I love to see how they growing and learning new things. I feel like they are teaching me as well because of all our experiences. We often go for trips, for example get to know new nature or culture.

I hope the above is satisfactory and helpful so you can get to know me a little closer.
