Student Letter

I am Alexandre, 16 years old and I live in France. I live with my parents and my twin brother and have an older sister and brother. My parents are both in the medical field, in fact my mother is a pharmacist and my father is a surgeon. We are lucky enough to see our paternal grandparents and my maternal grandmother once a week.

I think I'm a responsible young man, respectful of the rules and hardworking. I am very calm and I have learned to adapt quickly to new situations.

I have been windsurfing for 5 or 6 years now. I also do strength training at home. I really try to make the most of my free time to see my friends and when I can, go swimming, and in the summer, I go boating or wakeboarding.

My older sister and brother were able to do an exchange year in the US during the same high school years, it was an incredible experience and they came back completely changed with a totally different vision of the world.

On my return to France, after graduation, I hope to be admitted to economics university or medicine. I would love to work for an international business society and travel with my job or to help people as I can.

My dearest wish for 2022 is to be welcomed in an American family for the year ahead. So I am really looking forward to meeting you and being a part of your family!
