Student Letter

My name is Stanislas, I am a French schoolboy. I am fifteen years old. My parents are divorced and I have two big brothers named Emile, 20 and Jules, 17, they are nice with me: when I have a problem they can help me.

I want to go to the United States because I went there in 2019 and I loved it. What I saw made me dream and return to this country to discover a new culture, to be able to have another vision of the world and will also allow me to become bilingual.

I am a little sensitive but I have a lot of humor. I am a perfectionist, I am attentive to my work, I make a point of honor that it's well done and I like when the result is up to my expectations. I am very energetic and dynamic, I love spending time with my friends (especially in summer). We eat together, we laugh, we go to the cinema, we talk, we do sports, we go to the park. I am very athletic because I have been doing sports since I was little and for me it is important to do it. I do climbing and skiing in winter. I am very competitive and when I set myself goals, sometimes I don't reach them and I surpass myself to succeed. I LOVE formula 1, because it's a sport with a lot of strategy and I want to work in this sector when I grow up.

I also do a lot of piano. I find that the piano is an instrument which is relaxing and very beautiful. I mainly play classical music because the styles of the melodies are different from one composer to another.
