Student Letter

Hi my name is Victor, I am 17 years old and I am from Bolivia. My city is known for its amazing parades where many cultures and dances exhibit their traditions. I live with my mom Edith. She is the manager of two hotels in our hometown. I am the youngest of my siblings. My family has received many exchange students in the past. This is why I applied because I saw how they enjoyed and lived as exchange students with us. I consider them real brothers to me.

have a small group of friends, we like playing Tennis, singing in the Choir, playing cards and having a picnic during a hike. In general, I like the arts. I like to play any sports but the ones I love are Tennis and swimming. My favorite subjects in school are Mathematics, Physics, Music and Philosophy, I like to learn a lot from debates on many topics such as Politics, World Problems, and Religion. The most important part is to be respectful with everyone from different backgrounds. I'm super energetic and analytical, I love being able to speak with confidence and being able learn from other people.

I am confident we will all get along and do many activities together, such as going on trips to local parks, museums, playing sports, drawing, or cooking together.

Thank you for reading and I am grateful that you gave me a great opportunity to live a new life. Sincerely, Victor
