Student Letter

Dear family:

My name is Sofia, I am 16 years old and I live in La Paz Bolivia. I live with my mom in an apartment in a big condominium. I attend an only-girls school and there are around 500 students. In my class we are only 16 students.

In my free time I like to read, listen to music, watch movies and play video games. I also like to cook a lot especially cakes and cookies. On holidays, I get up later and I like to have a delicious breakfast with my mom while we watch a movie, then we clean the house and we choose to go for a walk together, go to my family's house or with my friends. I have my best friends with whom I like to spend time with. We really like to go to the movies, have an ice cream.

These last two years that I have in high school, I want to make an effort to research universities to be able to choose well and the area of study. For now, I am thinking psychology. Since I was a little girl, I have been very interested in it and I would also love to take a course or study nutrition as a second career.

Sincerely, Sofia
