Student Letter

Dear host family,

My name is Aitano, I am 16 years old and I am from Ecuador here is a little bit about me. One of the things that I really enjoy is riding the bus, because there I can really open my eyes and connect with the environment surrounding me. I also love the arts in general but I especially like drawing with pencils. I enjoy art because it makes me feel powerful emotions and it brings me the joy of not understanding. A third thing that I enjoy is walking among the city streets, because I think of the city as one being; that every brick in the wall, every piece of grass in the sidewalk and every person that passes me by has a story to tell.

My three main expectations for this exchange program are: finding a new home in the US, making new friends and becoming fluent in English. I am excited to live with a new family that will allow me to feel like I am at home. I hope to make new lifelong friends that I can stay in contact with even after the exchange ends. I expect that by being emerged in the English language that after a year I will be fluent.
