## Student Letter

I am Laiyna-Lise, I live in France, I am 15, my birthday is on the 5 December, and I am a high school student in a big and old school in the historic center of my city. I have a twin sister and a younger brother, is 10. I live in a modern house with a big garden and a swimming pool, I like swimming, I did 5 years of swimming, and 4 years of horseback riding, and for 3 years I did music theory and 2 years of harp. And this year I am in a boxing club.

I love to read. I collect a lot of books, mostly fantasy. I also like series and cartoons. My family has a ritual, on Friday evening we choose a movie, and we make meal trays, I love these moments because it allows to meet and decompress from the rhythm of the week.

At school, I am involved, I try to do my best, because I know that the time I spend at school is important for my future. My favorite subjects are languages and history. In my high school I learn German and Russian in addition to English.

And my least favorite subject is math, which I'm not very good at.

I like to discover other cultures, which motivates me to want to leave and learn another language, I have traveled a lot with my family.
