## Student Letter

I am 14 years old I have for project to study one year in United States. I live near Paris so I can see the Eiffel tower and famous monuments all the days! I like to visit Paris with my parents and museum. I also like very much the nature!! With my father, I like to do road biking, I share good moments with  
With my family, we also love to play at table games, as we all have a competitive mindset, it can be very animated.

I love sport and I practice rowing since I am thirteen and I practice tennis since I am 6 years old. I like the ski too. I like the team spirit in rowing and I do tennis because I like the competitive spirit when I do tournaments.

I like to ski because I am a big fan of mountains. I go in the Alps very often, because a part of my family live there and it is a good occasion to see my cousins. I get along very well with them we share a lot of good times together.

In the summer I like to climb in mountains. I think the mountains are one of the best gifts the earth has given us!

I have two last hobbies : the scoutism and cooking.
