Student Letter

My name is Verdiana, I'm 17 years old and I live in Italy. I'm very outgoing, I love making new friends, I'm also a really positive person and the thing that I like the most about myself is that I love to take care of my friends.

I really enjoy playing volleyball and I really like swimming. I used to play guitar but I had to stop due to Covid. I also love taking photos, drawing, and cooking!

I want to come in the United States but I can't really give you an explanation, I was planning to do a year abroad since I was in middle school and I've always wanted to go to the United States, I really don't know why but there is this feel inside me that tells me that that is my place, is a place where I'll be happy and since I have this big opportunity in my hands I will not let it slip, I'm determined to go, it really feels I'm doing the right thing.

In my exchange experience I hope to get to know a lot of new people, I hope to visit the city that I will end up in and I also hope to have a good relationship with my host family and with the students at the school that I will end up in.
