## Student Letter

I am Mattia and I am from Italy. I am looking forward to meet you.

I want to come to the United States to improve my English and especially grow as a person and of course to have fun with you and my future classmates. I am determined, I am not afraid of making big new experiences like this and I hope that I could have a great relationship with you.

I think I'm a polite and kind guy. I love doing sports in particular my sport which is Calisthenics. Also my main passion are cars and everything related to the engines

My parents were very young when I was born and thanks this I grew up well with them indeed until they broke up. Than I grew up with my mother. I love them very much.
