Student Letter

I'm Andrea, I'm almost 17 years old and I'm from Italy. I attend a language high school and I study three foreign languages: English, German and Spanish, and I am also attending an optional French course. I love studying, especially languages, not only because getting high marks makes me proud of myself and my sacrifices, but also because I really want to have an enterprising future that can make me happy.

I love to laugh and have fun, but most of all to entertain and make people laugh around me. I love traveling and discovering new places, people, cultures, dishes, and languages. I love art and music, and more in general, all that triggers the imagination and let transpire emotions.

I have practiced a lot of sports, such as tennis, horseback riding, swimming, judo, and volleyball, just because I like to experiment with new things. Among all these, however, what I loved most was volleyball, because by doing it I have been able to found a second family, namely my ex-team. I have a great relationship with my family! Although my parents have not been together for 5 years now, we are all very close and we live in a climate of harmony. I have two dogs and two cats, who all get along well.

I look forward to meeting you and spending an unforgettable year with you.
