Student Letter

Hello! I'm Hyeonjin the happiest person in the world. I am 15 years old this year in American age, and I am a normal but special student. I have a very lively personality. So, I have a lot of friends and I think my social skills are good.

My mbti is ENTJ. ENTJ is the title of bold leader. That's why I have a good leadership, so when I'm going to do something with my friends, I tend to lead my friends in a well-planned way. I want to make a lot of friends in America.

I love to cook. Sometimes I cook delicious meals for my family. I'll probably cook Korean food for the host's family. I really like to play games with my friends. So I'm very interested in dealing with things like computer equipment and programs. If there is someone in the host family who likes games, I want to play games with them.

I am really tall. I am 6.1 feet tall. I am tallest among my friends, but my friends are also tall. I like to exercise. I like swimming and playing badminton. Also I am good at drawing because I have good concentration. I have been drawing for about 2 years. I have won many drawing contests.
