Student Letter

My name is Ali Efe and I am a sixteen year old student. I live in a small city with my family. In my home life, I usually study, watch TV series, help my mother with the housework, play games with my brother. I like to eat. I have a brother. He is 10 years old. I usually get along very well with him, but of course, sometimes there can be arguments. But we make up soon. I get on very well with my mom and dad. I am grateful to them for allowing me to go to the United States.

I'm a bit of a quiet person around my family, but I talk a lot when I'm out. I like to talk to my friends. I like to cook, but I need to learn some recipes. That's why I want to learn Tarhana soup and make it for the family I'm going to. In general, like other students, I really enjoy having fun.

I like to go out with my friends as much as possible, play basketball, go to the movies, spend time with my family friends, play football. I am a licensed basketball player. Basketball is very important to me. I am mostly good with my teammates. I enjoy playing with them. My favorite subjects are physical education and math. I like to study.
