Student Letter

Hi, I am Tuna and I am one only of my family since I don't have any siblings. I am fifteen years old. My mom is a teacher and my dad is a doctor. On some days I spend time with friends when I don't have any homework. Also, my hobbies are arching, reading books, and hanging out with my friends. I also love swimming with my family. We can also go to the cinema with my new family and have new experiences, and see new places that I haven't seen before. I always dreamt about studying in the States.

Being respectful of differences will be my priority to internalize. I believe we'll have some matching dreams about the future so my emphasizing skills will increase; therefore I will share emotions, meals, lessons, the room where I sleep with different people for the first time in my life so it will be a different experience for me as well. Maybe I will learn what a sibling means next to the family I stay with. I will be learning to trust and love people like my parents.

Like that, it will be a preparation for me and my college life, I'll learn that I must stay on my own feet apart from my parents. Those new experiences will make me one step closer to being a world citizen.

Thank you for having this opportunity.
