Student Letter

I am glad that I got the opportunity to introduce myself to you. I live with three sisters and parents, and cats of course. My city is filled with green areas, rivers and tall urban buildings and very good restaurants. I am a high school student at and I regularly finish all my school obligations and achieve very good results. I am a very friendly person and I always look forward to talk with new people; I enjoy listening to different stories about other cultures and people living in different places.

Art has been present in my life since childhood, until today. I spend most of my day drawing and listening to music on my gramophone record. And so the job I would like to do in the future is architecture, which is very interesting to me and somehow goes with me and my character, as a perfectionist. It is my wish, which I will try to accomplish in further schooling.

I love animals, especially cats because I have four at home. Friends are also an important part of my life and I spend most of the day with them, while we make some beautiful memories. Leading lanterns, various trips...I am a very responsible and tidy person. Very capable and ready for new challenges
