Student Letter

Hi there, my name's Robert. I'm a 16 year-old dude who's passionate about cybersecurity, as well as nature. Speaking of family, I can only say wonderful things, my parents are awesome people, they support me in everything I do, they encourage me to not give up on my dream of living in the United States, on top of that, I can honestly say that they are extremely open-minded people, they love their job of being professors and supporting students. We usually like to play brain oriented games, like chess, or kicking back and watching movies together. I like to go outside in nature, I like to play badminton, chess and pretty much any strategy game. I'm also fascinated about technology, thus my cybersecurity passion. My friends and I usually like to play video games, going on campfire trips and outdoor cooking.

I'd like to work in the cybersecurity field in the United States, why the United States? I'm amazed by this country and I'd really like to live here over a long I'm amazed by this country and I'd really like to live here over a long period of time. In conclusion, I would add that I have a humor that works in 99% of cases, so I think I would make your always laugh :), I hope I have made a good impression on you and I promise I will not disappoint you.
