Student Letter

My name is Alicia, I will be 15 in March and I live in Spain. I live with my mother and her partner. I have a sister older than me and my mother's partner has 2 children, a boy younger than me and a girl older than me. I get along very well with all of them.

My favorite things to do are watching series and movies with my family, going out to dinner or meeting my friends for a walk, or going to the movies. I love to travel and my family and I usually go to at least one city every year.

I am very self-reliant and quite self-demanding. I like to make things perfect and to make them look as good as possible. I'm shy but when I'm with someone I feel comfortable with, all the embarrassment goes away and I'm myself again.

I have a very good relationship with my family, especially with my sister. We are an inseparable duo. We tell each other everything. Just like with my mother, you can talk about everything with her. Whenever I have a problem I go to her and she always supports me no matter what.

My favorite food I think is pasta, I eat pasta whenever I can. I usually eat all foods, I'm not very enthusiastic about vegetables, but when I have to eat them I eat them without any problem.

When I grow up I would like to be a flight attendant and for that, I have to have a very good level of English, that's also why I want to do the exchange.
