Student Letter

My name is Theophile, I am 14 years old and I am from France. I want to have an immersive experience in an American family, to study in a different way, to discover another way of thinking, living. I wish I will live a very exciting experience in an American high school, be involved in a sport team, learn in a different way. Three years ago, my brother spent 3 months in a family in Wisconsin. When he came back in France, he had changed a lot, became more mature, had a different way to see the world and became bilingual. When he explained his experience, he made me dream and I decided to live a similar experience.

With my mother, I like to speak with her. We speak about our life, we speak about everything. With my family, we also love to play at table games, as we all have a competitive mindset, it can be very animated.

I love sport and I practice rowing since I am thirteen and I practice tennis since I am 6 years old. I like the ski too. I like the team spirit in rowing and I do tennis because I like the competitive spirit when I do tournaments. I like to ski because I am a big fan of mountains. In the summer I like to climb in mountains. I think the mountains are one of the best gifts the earth has given us! I have two last hobbies: the scoutism and cooking.
