## Student Letter

My name is Vianney, I am a 16 years old boy. I come from a family of 4: my parents and my 11 years old brother. We live in a house near the sea with our 2 big dogs. I'm very close to them. My parents are both doctors and work a lot. But I really love spending time with them on the week end. We go for a walk, or play with the dogs. My brother and I like those days ! I'm healthy, I love sport (especially ball ones) and friends. I play Handball 4 times a week, Volleyball twice and I used to play Tennis. I also go running or doing exercices the rest of the week. I love listening to music but I don't play instruments. I like shool and learning new knowledges. I never had problems at school, with teachers or friends.

I start thinking of this year in US 3 years ago, and It hasn't change since I imagined it the first time ! I currently live in France and I really love your country ! My first language is French, but I think my English is good, So I think communication will be OK. I want to discover your culture and your country, be part of your family and community.

Of course this year far from my family will be difficult at first. But I am brave and invested and i'll do my best to make it a super experience for both of us. I am a curious person, always interested in discovering new knowledges, places or things.
