Student Letter

My name is Malik and I'm 17 years old, a brother of 3 siblings. We live in the same house with lovely parents, my father Adel who works as an Accountant, my mother Hamida who works as a Teacher.

My family and I are trying to make the best memories with each other. We always do everything together, we enjoy our free time by doing various activities such as going on vacations, going on hikes, and road trips which strengthen our bond.

I grew up in a wonderful city, where all people were friendly with each other, a city has amazing views and building besides being one of the ancient sites in the world, also it has a beautiful sandy beach.

I have made great relationships in my hometown, I made a lot of friends that share the same interests with me such as football, scouting, reading books and they were always proactive when it comes to motivating me towards volunteering.

I'm planning to immerse myself in the US by Involving In school clubs, groups and organizations, volunteering, which will get me closer to the people, and I'm looking forward learn about the American culture to get immersed in the American lifestyle.

I'm an active person. I always spend my time on useful things such as reading books, sports especially football and baseball. And I'm planning to join reading clubs and sports teams in the U.S.
