Arrival:

August 2023

Age on Arrival:

16

Duration:

Academic Year

Student ID:

YS23PK01-12

Allergies/Special Diet:

Halal meats only; otherwi ...

Religion:

Islam

Student Letter

Hello! While writing this letter, I am very delighted to introduce myself. My name is Muskan; I am 15 years old. My name means is to "smile".

Biology has always been my favorite subject so I decided to study further in medical science and become a good doctor. We live in a metropolitan city of Pakistan.

We are a family of five people, my sweet grandma, my great mom, super dad and an adorable younger sister. We as a family are quite close. We spend our time on weekends together. Sometimes we go to seaside to spend time together. There we play different games like throw ball, cricket, racing etc. When I have free time, I often play ONO, Ludo with my little sister.

Whenever I get time after studies. I help my mom in cleaning and assist her in different delicious dishes making. I also help my younger sister in her studies.

Exploring new things and volunteering is very appealing to me. I love to participate in different volunteering work in my community. I like helping others and making them comfortable and often I try to help my neighbours children in their schoolwork. For this purpose, I have chosen to be a doctor.

Exchange programs will boost my self-development confidence and self esteem. It will help me to understand other cultures, build tolerance and chances of great opportunities in future.

Borderless Friends Forever
