## Student Letter

I am Alicia, I am 15 years old. I am sociable, self-reliant and I adapt well to difficult situations. Also I am a creative and imaginative person and I care about my people.

In my family we are five, my parents have been married for 24 years. I have a sister, 22 and a brother, 19 plus my dog Bilbo. They study at the university, but we live together. I love all animals, but my favorites are dolphins, horses and dogs.

I get along very well with my parents and I like to spend time with them. We do many things together: we usually watch movies together, we eat out, we love traveling together, we play monopoly or other board games etc. Also I love music, I make crafts, and I love reading books.

My favorite place is the sea, I love it since I can remember myself, it gives me peace and I like to dive and be able to see the marine world. Another thing that I like is the theater. I take a theater class and I love the adrenaline when I act. I really like sports.

These days, I play tennis, but I have practiced different sports and activities.

I want to be an exchange student because I want to learn about your culture that is different of mine; eat new foods (I like trying different foods); meet new people, as I am a very sociable person and I am not afraid to make new friends. I hope to become more autonomous, to grow as a person and have memories of a lifetime. I can't wait to meet you!
