Student Letter

My name is Maria, a 15 year old student from Spain and if you give me the opportunity, your next host daughter. I consider myself a simple girl and I live in a small town, all the neighbors know each other and there is a very good vibe. Also, one of my favorite places there is the river, where I always go to feed the ducks.

I have two groups of friends who are very important to me. One group meet on weekends to go to the movies, to the mall, to the capital, or simply to go to a house to talk. The other have been my friends since I was born, we are all from different towns but we each summer. We miss each other a lot during the rest of the year but we usually meet up a few times. I spend the whole summer with them.

My mom is a teacher and my dad is an insurance broker. My mother is the person I always go to when I have a problem and my father is usually the one I do brave things with. I have two older brothers too, age 22 and 20. I have a good relationship with them but because of the difference of ages they are like friends and me the little sister. Some activities that I enjoy are dancing and cooking. I was in a dance club for many years but since I left it due to the pandemic I have only danced with friends. I'm not great at cooking but I enjoy it a lot. I do the best torrijas (french toast) in all of Spain, when you taste them you will not let me return to my country.

My best wishes and see you soon, María.
