Student Letter

I am 15 years old. I am an honorable and kind person always willing to help, cheerful and humorous, maybe too much perfectionist, and very responsible and independent. I love playing and watching sports. I've been playing soccer for 8 years. I enjoy being outdoors and I also like to spend some time listening to music, playing video games, and watching movies. I love all types of food, and it is very important for me to stay healthy, although when I'm with friends I also love pizza and ice cream.

On weekends I usually play a soccer game with my team. If we have a full day off, we try to go hiking or to the beach.

A few years ago, we visited Egypt. It is such an incredible place, and it really impacted me with all that history, those spectacular ancient monuments, and above all, their people. This trip made me realize how people with minimum resources are happy, kind to the tourists, and thankful to be alive.

My parents have been divorced for 12 years. My older brother and me live one week with each one. My little sister, she is all love and tenderness but sometimes she is very temperamental. Oh, I'm going to miss her so much.

I am really excited and of course nervous for all the things to come but I am sure that I am ready for this experience and with a little support from you, it will be an unforgettable experience for all of us.
