Student Letter

My name is Alba and I am 15. I live in Spain with my family and my dog. My family consists of my mom, my dad, me, my brother and my sister. My dog's name is Buddy. I love playing, sleeping, and taking pictures with him. He is my life partner and he is the one I will miss the most on my exchange to the USA. I am very friendly, sociable and I'm always smiling . My teachers say that I'm a chatterbox. I love cooking, spending time with my friends, traveling and enjoying summer time.

I always help at home, something that I will also do in my host family and I hope you will like my meals, mainly desserts because when I went to a Master Chef summer camp, I learned how to cook many delicious dishes. I would like to spend time cooking or doing any other activities with my host family.

I am so excited about my new life in the USA! I have always wanted to spend a year studying abroad and it seems that my dream is close to coming true. I would like to learn more about traditional American celebrations such as Halloween. I love dressing up, watching scary movies, decorating pumpkins and enjoying all the scary amusements Halloween offers. In addition, I would like to know new places, become fluent in the language, make new friends and have fun with my host family. I think this experience is going to be very useful for me to grow as a person.
