Student Letter

My name is Miguel and I am 18 years old. I am very sociable, open, always positive and willing to help, I like to try new things, and meet new people. I love animals and nature, and I enjoy reading Manga, being with my family and my friends a travel around the world.

From this year I expect to live the American way of life, meet a family and enjoy the day to day with them, about their culture, habits, and friendship. I also like sports, in Spain I go skiing in the winter, and during the summer I go to the beach with my family and we do scuba diving, my father has a production company that does underwater documentaries so we all love diving. My mum was a professional skier when she was younger, she competed in the national team, so we all go skiing too.

We also love travelling, once or twice a year we prepare a trip to a different country, and this brings us a lot of new experiences and to know new cultures. I love to spend time with my friends, we like to go to buy books, see movies, go for lunch, stay at home playing video games, or do some sports.

I think having this experience will help me a lot in my future, not only because of the international experience, meeting new people and so on, but also learn a language and on top of everything meeting a family in another country, I know they will be my US family for ever.
