Student Letter

My name is Sol, and I am 14 years old. The people around me consider me a very happy, enthusiastic, empathetic, and hard-working girl.

I take care of my friends, spending time with them. We usually go to the center of the city, always very lively, to eat something and see shops. My favorite seasons are winter and summer. Winter because I love wearing warm clothes, but above all, I love Christmas; the lights, going out with friends for a warm drink and feeling that Christmas atmosphere. It is also a very family-oriented holiday. I also like summer because there is no school. I have a house where I spend the summer that is in front of the sea. When I wake up, the first thing I do is go down to the beach. I love sunbathing and being tanned, but above all, summer trips.

I go to an all-girls school. I get along with everyone. Being at a small school is a plus, since everyone knows you, and you are taken care of. My favorite subject is Science, although it is difficult for me. I love learning about the human body. When I grow up, I would like to be a veterinarian because since I was very little, I have always had a very good relationship with animals.

My favorite food is Asian, but I can eat anything. I really am looking forward to this exchange program, and I hope we can bond and spend many great moments together. If you choose me, for sure I will give the best of me.
