Student Letter

Hello, my name is Mathilde, I hope you going well! I am going to talk a little bit about me, my life in France, my family, and my hobbies. I'm 15 years old, I have a brother who is 22 and studying pharmacy and a sister who is 20 years old, and who is studying in a business school. My parents are divorced, I live one week with my mom and one week with my dad. We all get on well, and I am very close to each of them.

My friends describe me as a nice and kind person, who is tune with them, and who love to laugh. My family describes me as a smiling person easy to live with and who needs affection. I will add that I like change and meeting new people, but at the beginning I am a little shy until I trust the person.

My hobbies are sport, I practice boxe but I also like soccer, ski, swimming, volleyball, basketball and I will love to try american football. I also like listening to music, watch movies and shows, playing board games and video games. I like animals a lot, I have one cat Ramses, but I don't like snakes and spiders. My three favorite hobbies are spending time with my friends, surfing and travelling especially where there is sun (I love sun). Thanks to my parents I have this chance.

Loving to travel is one of the reasons while I want to do this exchange, discover the American culture has always been my dream. I will also be happy to improve my English and gain in confidence. I hope meeting you one day, take care, Mathilde
