Student Letter

My name is Salma, I'm 15 years old and I live in the south of France. Becoming an exchange student in the United States has been my dream for 6 years now.

In terms of my habits and my way of life, I try to live my life enjoying every moment, but it's true that I'm a very stressed person so sometimes it's complicated like the weeks of exams, competitions... To be at my best, I organize myself as best I can. I have extracurricular activities, I have been swimming for 10 years, gymnastics for 4 years. except that unfortunately I injured myself and had a major knee operation. I'm telling you about it because it touched me a lot and it's part of me now, but it didn't prevent me from qualifying for the French sports rescue championship during the 2022 season.

Some facts about me: I need an open-minded family, I like diversity, I cultivate difference, I am in no way judgmental and I do not hesitate to defend just causes that are close to my heart.

Then I describe myself as a person who is sociable and motivated. I like the fact of being determined and having goals, I am mature and all the events of my life, the deaths... They make me someone responsible, resourceful and hardworking.
