Student Letter

To begin, my name is Antoine, I'm 15, and I live in France. I really love your country and I already came in the USA 3 time before.

In my life, I also travel in Canada, or Guyana in the south America. Or Dubai in the desert and I also did a lot of local trips in France or Europe. And with my experience my favorite country is the USA and for this reason I want to discover the real life there, discover new mentality and discover the US school system!

In my life, I do a lot of sport so I love it. It allows me to let off steam. I practiced many different sports when I was young.

When I'm at home I often join my friend to chill out or practice sports. I really appreciate my friends because we laugh a lot together. We often go in the city and walk or eat at McDonalds. If nobody is available to go out, I play video games.

I cook some crepes or other foods. I will be able to cook some crepes for you! I love the animals like dogs or cats, but my favorite animal is the bird.

I think I can adapt to your school system and I'm so impatient to discover it. In France a lot of people want do an exchange year and I'm so recognizant to have this luck. If I need to work hard, I will work harder. I'm ready to invest in the family life and become a member of your family. I'm so happy to do this exchange year and thanks you for it!
