## Student Letter

My name is Chiara. In my family we are four. My mother, my father, my older sister and me. I also have a little dog, named Clean. I'm very fond of my family. Even if I don't show it, I'm sensitive, I'm really shy at first, but when I get closer, I become much more outgoing. I'm also responsible, kind, tidy and I'm good at school. I am committed, and I always try to do my best in everything I do.

I like making other people happy, I prefer giving something rather than receiving it. For example I love the moment when we open gifts to see the reaction of those who open them and find something they did not expect, that they wanted so much. I love when I cook for my family. I would love to cook for my host family too, and teach them some typical Italian recipes, and to cook together dishes of their culture. I love small gestures like when someone tells me "I thought of you when I saw this." They make me realize that people really care about me.

I like to spend time with my friends and family, I love to have new experiences with them, starting with the little ones, like watching the sunrise or sunset on the beach, or things organized at the last moment. I like to take pictures and when I have free time, to watch through my old photos. Often photos may seem insignificant, but they are very special memories for me. I love to travel, in fact I am a very curious person, I adapt easily to situations, and I like to get to know the traditions of other countries.
