## Student Letter

Hi, I'm Sara, I live in Italy. In my family, we are my mother, my father, two older brothers, two dogs, two cats, a parrot, and me. Pablo, my parrot, is like my best friend, and he's always with me. It'll be hard for me to be away from him even though he teases me a lot by stealing my feathers while I study or when I eat, he always tries to steal my food.

I'm really excited to meet you. I turned 16 at the end of October and consider myself a responsible and kindhearted teenage girl. I'm a thoughtful person. I am very sociable and outgoing and I make friends very quickly. I easily adapt to changes and different situations. Even though I'm a little shy, I'm not afraid to ask questions or to offer to help others.

My family and I like to travel and visit many places. The cities and places I like to visit the most are those near the sea. I love nature and animals. My favorite animal is the dog. Two of my greatest passions are photography and cooking. I really like both. Since I was a child I have practiced many types of sports. The one that I have participated in the longest is artistic gymnastics but unfortunately I do not do that anymore and I have recently been doing gymnastics which I also like a lot. I like to listen to music, when I'm alone I like to read. My favorite movie is avatar and my favorite show is the good doctor.
