Student Letter

My name is Magda. I am 15 years old and I come from Poland. I go to class 1 in a bilingual High School. I'm a very sociable, open-minded, and super-organized person. I'm smart and quite intelligent, trustworthy, I have a sense of humour and it's easy for me to make new friends. I am calm, but sometimes I am bursting with energy. I am fifteen years old, and like any girl my age I am energetic and positively twisted. I have crazy ideas that I love to realise. Sometimes I like to take risks, although sometimes I'm not one hundred percent convinced of them. Nevertheless, I usually decide to take a dangerous step and always win. Just one of them is to participate in the program and go to the USA. For me it sounds like the most beautiful adventure of my life. I love meeting new people and I'm already looking forward to meeting my new family as I'll be meeting new people on the first day of school. I believe that every new person in my life is another step to open up to the world and getting to know myself better. My hobbies are horse riding, volleyball, cooking, baking, skiing and singing. I really like the colour black and bottle green, oversized sweatshirts, playing board games, watching football and going to the theatre. I really like animals, especially horses and dogs. The exchange opens up many possibilities for me in the future, for example, It will prepare me well for my studies abroad. I hope that my dream will come true soon.
