Student Letter

Hi, my name is Antonio and I live in Brazil with my mom and dad, but I'm always close to my family (uncles, aunts, cousins). We get together to have lunch since eating in family is a Brazilian tradition.

I make friends very easily and I am a very outgoing person. I am not shy and I talk to everybody around me. I am also an independent person: I can cook - especially Brazilian treats like brigadeiro and pasta. Some of my interests are music and movies/series. My favorite type of movie is comedy - the Brazilian ones and some dubbed versions of American comedies. I hope I can show you some of my favorites!

I am a fan of some American holidays, such as Halloween and I would like to go through that experience. I want to try out different things like sports and food. I hope we can do some activities together.

I am also thinking about my future. When I am older, I want to live in the US and work with something I am interested in like Psychology, and I would like to work and live abroad. Being in an exchange program will open doors for me in that sense and also give me new friends for life.

I really hope to enjoy my stay and meet many people and places. I hope I can help with whatever it takes and take the lessons for the rest of my life. I am sure this experience will contribute to make me a better person. Thank you for your time!
