Student Letter

My name is Zainab and I'm 16 years. I am living with my twin sister, my Mother, my Father, my Grandma and my lovely Dog named Leo. Even though we don't really share the same interests, but we still manage to spend enjoyable moments. Either cooking together or watching movies, playing chess or video games with my sister and little cousins. We also love going out on picnics. We tend to split up household chores fairly. For instance, if I walk Leo and do the laundry then it's my sister's turn to do it the following day. No one should have to be responsible for one task forever, especially if it's unpleasant. I love helping around so I actually like participating in those tasks.

As a curious and energetic teenager, I have numerous interests, such as reading books, watching movies or documentaries, cooking, doing crochet and writing poetry. It'll be my greatest pleasure to share with you my writings and I can't wait to meet you and get to spend the most delightful moments teaching you how to crochet, cooking or watching movies together!!

My ultimate goal in life is to live without fear. To take the world as it comes and be prepared to deal with any eventuality. My future plans are to pursue my higher education, fully prepare myself for the career I've always dreamed of and work sincerely to achieve that goal, because I'm positive that hard work always pays off.
