Student Letter

My name is Omar, and I am 16 years old. It has always been a great dream of mine to live in another country, and the fact that it will soon become a reality excites me greatly. I want to visit the United States of America because I think it is a beautiful nation with beautiful people. The beautiful landscape and friendly people of the United States fascinate me.

I'd like to tell you a little bit about my family: A typical Palestinian family is my own. What's more, it consists of my parents, my more youthful brother, my two older sister, and me. My mother is a pharmacist, and she works in our family's pharmacy. She is a nice person who likes to talk to other people and is friendly. I also like to talk to other people when I go out. My father is also a pharmacist, but unlike my mother, he is quiet and only wants to spend his spare time with his wife. Both my parents and my siblings are supportive of me. I believe it is normal for us to encounter difficulties from time to time, and we work together to resolve them.

Because I have so many ideas for my future, I am a young man who is creative and driven. I'm interested in the American school system because it offers me a huge opportunity to shine because I enjoy all sports.
