## Student Letter

Hi, my name is Layan, and I am 16 years old. It is my pleasure to tell you about myself. I live with my parents and two brothers in a city in the center of Saudi Arabia. When all of my family is together, one of our favorite things to do is playing card games like UNO. My mother's passion is farming, so she has always made it a point to instruct us in its various aspects. I also tried my hand at growing basil and mint, which was a lot of fun! Because I Am Naturally curious and spend much of my free time in the kitchen, I tutor my brother whenever possible. I take a trip to a nearby farm and pick some fruit. My favorite hobby is taking care of my cat. I never feel bored since I always play with my cat when I had free time. Not only that, but my hobby keeps me in shape and teaches me to be responsible. That's why I love to have pets. My objective for the future is to earn a degree in mechanical engineering. I enjoy reading about and learning about scientific topics, especially physics and chemistry. I want to attend an Ivy League university on a scholarship and being with you will help me achieve my goals. It will also teach me to be independent while improving my English. I enjoy reading and writing in the English language. I have been learning it since I was ten years old. I know a little bit of Turkish and I'm also trying to learn French. In addition, I have a deep fascination with American heritage, customs, and culture.
