Student Letter

First, let me start by expressing how much I'm looking forward to meeting you and getting to know each one of you. Until then, I'm writing this letter to give you a glimpse of my life and to answer whatever questions and concerns you might have about my background and my personality. I am a 16-year-old boy. Thanks to my parents' union and their openness and support, I am an easy-going person, flexible and adaptable, I positively respond to change and I am very respectful for rule and restrictions. I might describe myself as kind, reliable, confident and always cheerful. Once you really get to know me, you won't get bored of my weird funny stories. My friends and I enjoy playing football, eating out, and watching films together.

About my hobbies, I am passionate of travelling, I enjoy discovering new places, visiting famous international sites. I also love meeting new people and exploring different cultures and ways of life. My favourite hobby is bodybuilding. I also enjoy playing chess, swimming, playing soccer. Volunteering is also one of my important interests. I intend to study medicine. And my dream job is psychotherapist.

When it comes to friends, they are in important part of my community, we always spend the best times together, their company is just priceless. By the way, one of them is Belly, my cat. I love pets and enjoy their company because they are always there for you when other people are not.
