## Student Letter

I am writing to express my excitement about the exchange year that I will be participating in soon. I am a Spanish teenager, and I would like to tell you a little about myself. I am 15 years old and live in a big city with my family. My dad, is from Colombia, and he came to live in Spain 27 years ago, and my mother is from a small village not too far from where we live. My father works administrating an escape Room, and my mother is a jeweler. I have two younger sisters, aged 12 and 9, so I'm the oldest one, I enjoy playing with them, especially with the youngest one.

I am a very sporty person, and I love playing and watching almost any sport. My sisters and I are members of a Rugby Club, which I'm very involved in and enjoy a lot. Furthermore, I train two days a week and have games every weekend, which keeps me quite busy. Most of my friends, are in the same club where I have been going for the last 7 years. Moreover, I play volleyball in the school team, although I'm not very good, I have a lot of fun. I believe that sports are a great way to connect with people, and to stay healthy.

I have always been interested in the United States, especially now, and obviously I'm very excited, I am eager to experience American culture firsthand. I think I will grow a lot personally and academically, and I hope to learn more about your country's culture and way of living.
