Student Letter

My name is Titouan. I come from France. I am fifteen years old, and I am the oldest sibling of my family. My parents are separated so I have a stepmother and a stepsister who is fourteen years old. I also have a brother who is thirteen, a sister who is ten years old and a cat named "Gribouille". I live one week with my mother and one week with my father. I get along well with everyone. We do a lot of things together.

We live in a cute city next to the Atlantic Ocean. Consequently, I can do watersports like kitesurfing, sailing, or fishing with my grandfather. In addition, I'm used to go out with my friends, to the wakepark or biking with my family. But, I also practice handball three times per week and I am the best scorer of my team. I also like to listen to music or watch movies on netflix or video on youtube. Sometimes, I enjoy cooking dishes or desserts from all over the world.

I am a serious student. My favorites subjects are math, physics and English of course. I am a reserved person, I don't speak a lot but I think I am funny!

I have always dreamed of going to the United States of America. I have been very lucky, since I was a child, I have traveled all around the world with my family, so I have developed an open mind. For example, we have visited South America, Asia, all over Europe, but we have not yet visited North America!
