PROGRAM

Arrival:

August 2023

Age on Arrival:

16

Duration:

Academic Year

Student ID:

AY23FR13-11

Allergies/Special Diet:

No / None

Religion:

Agnostic

Student Letter

Hello my name is Gaspard and I am 16 years old. I would say that I am caring, patient, really tolerant and understanding and I have always been told that I had a lot of intellectual abilities. I am very optimistic and always look at the bright sides of thing even in difficult situations. I am really close to my parents. My dad and my mum get along, we even celebrate Christmas together and me and my brothers' birthdays. However, sometimes they don't have the same opinion or the same way of seeing things. With my dad I live in the countryside, our neighbours are cows and horses, with my mum, I live in a small town. When I was 12, I decided to go to school in a big city, I don't regret it, I made a lot of friends and it's easier to practice activities, go the gym, go to the cinema etc.... What about my hobbies, first I am really sporty and mainly love team sports, I played handball for 4 years, soccer for 2 years, did some scooter for 2 years and recently started going to a fitness centre with my brother. At school I have always been a sports leader and loved playing with my classmates, I took part to different school sports clubs from handball to mountain bike and many others. Something that I haven't talked about yet is music and food, I listen to a lot of different types of music and I almost always listen to music. I like to cook too and I enjoy eating good food and even more when I cooked it by myself, I feel proud, I have always been cooking with my family.
