Student Letter

Hi there! My name is Maks, I am 16 years old and I come from Poland. I have two younger brothers- 9 and 15 years old. I do not have any animals, however I have heard that it is a pretty common thing in Your country, nevertheless it is fine for me. My parents are divorced and I live with my mother, yet I stay in touch with my dad and we meet regularly. I have some households, however I try to do more to help my mother. It sometimes gets under my skin that my younger brothers do not do as much as I do, or they do not do anything at all- the youngest brother. In those cases I try to endure this inequality, as it will make me stronger, tougher. In those situations and in others problematic cases I try to stay optimistic- I have noticed this recently, this is thanks to my mother, as it is her personality trait.

My biggest hobby is working out. I consider myself a sociable person, and I enjoy spending time around people. I prefer to have a small group of friends, but they are all loyal and I know each of them very well. I am a hard worker and when I do something, I try to do this as good, as possible. Many of my classmates and my peers in general, cheat. I detest it! It has always been my dream to go to United States, and frankly speaking it is probably dream of the majority of my peers. I am looking forward to getting to know your culture and traditions, I am curious how they differ compared to Polish one's.
