## Student Letter

My name is Armin, I am from Poland and I am 15 years old.

I am interested in many things like: Airplanes, American Police and visiting many places around the world. Lets start with the thing I interest so much, witch are airplanes I know a lot about airplanes, I can recognize every model of a bigger plane I see, by saying bigger I mean the planes like: Airbus A320, Boeing 737. Now lets move to the second favorite thing I love witch is the American police, I am a big fan of the american police because of it's vehicles, In Poland we say that an American Police car is better equiped than a whole polish police station, the favorite car for me is the "Ford Interceptor Police Utility", Commonly known as the Ford Explorer. Also a big part of my interests are Various countries, when I was younger my mom always took me to many places, most of the times it was in other countries like: Greece, Turkey. And so many other that I can't remember. I really love animals however I am sometimes lazy about taking care of stuff around me, as every teenage boy, I go to a swimming school. I've been there for 8 years but I am swimming since 10 years, I really love swimming.

My personality is great, everyone tells me that I think it's because of the way I talk to people, and I make great jokes, My English is almost excellent but It's not perfect and I will change that during my stay in the United States.
