Student Letter

My name is Kosma, and I am currently a student at Polish High School, eleventh grade. My interests include pottery, admiring beautiful views, traveling and exploring new places, creating memories, learning about US law enforcement, the US legal system, and politics, and participating in target shooting. I should mention that I love math, first aid and psychology.

While I have never been a particularly athletic person, I am not closed off to the idea of trying new things. In fact, one of the main reasons I am excited to become an exchange student in the USA is to challenge myself and broaden my horizons. I am eager to step outside my comfort zone and experience new things, whether that means trying out for a sports team or exploring a new hobby. I am confident that this exchange program will push me to become a more confident, resilient, and open-minded person, and I am excited to see what the future holds.

Music has always been a huge part of my life, and I am always eager to discover new genres and artists. My tastes are quite eclectic- I love American pop music, but I also enjoy listening to punk rock and classic rock bands like Scorpions. And of course, no discussion of music would be complete without mentioning the King of Pop himself, Michael Jackson.
