## Student Letter

Hello! My name is Oliwia. I will be 17 years old in August. I live in Poland but I go to a German school. Currently, I am in 10th grade. We live close to the German and Czech border so my parents have decided to put me in a German school so I could grow up speaking multiple languages. I must say, I'm very thankful for their decision. I live with my parents, my brother, and my grandparents in a beautiful house. I love having company so with such a big family it is never boring.

Let me introduce my family to you. My father and my mother have a small grocery shop in Germany. I always go there after school. My parents are very lovely people. They are very caring and they always try to make everyone smile. We all love each other very much. Love, trust, and honesty are the most important things in our household.

And now I am going to tell you something about myself. I am a pretty sociable person. I am outgoing and I love meeting new people and making new friends but I often need some time to get comfortable and I can be shy at the beginning. Friendship is very important to me so gaining someone's trust is a key. I am clever and keen on learning new things. I really like reading books and dancing but my biggest passion is kickboxing. I have discovered my love for this sport thanks to my father. I have been training it for 2 years. In my free time, I like hanging out with my friends.
