Student Letter

First of all, I would like to introduce myself. You can call me Mark. My parents give me this name because i was born in January. The first letter is M in English, so my parents named me Mark. That's where my name came from. I am a fourteen-year-old boy. My family includes my dad, mom, younger brother and me. I am close to my brother because I am older than him only two years. We like to watch movies together and sometimes we plays game or do activities together. We have a small lawn in the house. Even though it's not big But I was able to do a lot of activities with my younger brother. We like to play soccer and badminton at home. My dad and my mom work together. They run their own business. They always support me in everything that I interest. My personality, I am active and enjoy meeting new people. I can make friends everywhere. Chilling and just minutes of talking. I can turn guys I don't know to friend and turn a friend to best friend. And I can give advice to other people. But sometimes I just like to be on my own. I like to play football and play sports. I believe that exercising helps keep your body strong and longevity. It also keeps me away from phones or electronic devices for long periods of time. I played football every day; I played football when I was eleven.
