Student Letter

Hello, I hope you are doing great. My name is Nika and I am 16 years old.

As for our family activities, the first thing that comes to mind is an outside walks with conversations about life and other interesting or fun topics. We also have an annual family activity, during the summer holidays we go to the mountain resort. After several days it may get a bit boring since there's nothing much to do but the refreshing and energizing air alongside mesmerizing views balance it out. Luckily, the view from our house is directly pointing at the hill areas. I've been seeing it for a decade and I'm still not tired of it.

My responsibilities at home are: taking out the trash, cleaning up after myself, helping with shopping. And I also sometimes prepare my meals, by which I mean frying an egg. (I'm not quite a Michelin Star chef)

As for my interests, they range from basketball to quantum physics. Music is my other passion. Currently, I play the piano and know a bit of saxophone, but for the past two years, my desire to take up violin skyrocketed. The sound of it when it's played is enchanting and just the thought that I'm the one who is playing it fuels my passion. Another thing that I enjoy is hanging out with friends as any other teenager. Speaking of friends, I have a relatively small but close friend group. Together we do a lot of things like playing football, basketball, pool and chess.
